AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Examiner's Office Action mailed October 23, 2002, please consider the following amendment and remarks in connection with the above-identified application.

IN THE SPECIFICATION:

Please substitute the title of the invention with the following new title of the invention:

-- SEMICONDUCTOR DEVICE HAVING AN ACTIVE REGION FORMED FROM
GROUP III NITRIDE --

REMARKS

At the outset, the Examiner is thanked for the review and consideration of the present application. Additionally, Applicants respectfully request that the next Office Action to not be made final, as it would appear from a telephonic discussion with the Examiner and the mailing date of the Official Action that this was an application which the Examiner was required to move from his docket, and that the Examiner did so quickly by applying the provisional rejection. Further, in accordance with MPEP 706.07 and 37 C.F.R. 1.113, before final rejection is in order, a clear issue should be developed between the Examiner and Applicants. As noted above, this is clearly not the case.
